Waterfalls Windows 7 Theme with sound is a relaxing theme pack that includes 10 wallpapers which depict waterfalls. It can be seamlessly installed and configured by inexperienced individuals. All of these pictures should perfectly fit all screen types (even the large ones), since they have a widescreen resolution of 1920 x 1200 pixels; they have bright colors and show waterfalls from all over the world. The theme pack comes bundled with a sound scheme - the sound of waterfalls; it is briefly played when you apply the theme to your desktop. The window color is automatically turned into 'Frost'. With the courtesy of the operating system, you may access the 'Desktop Background' area in 'Control Panel', in order to customize some properties. So, you can make the images appear in a consecutive or random order, at a user-defined time interval (starting from 10 seconds and going up to 1 day). Plus, you can deselect or remove the pictures from the slideshow, if you don't want them to be displayed on the screen. As for the picture position, the wallpaper may fit or fill the screen. Otherwise, they may be stretched, tiled or centered. The app does not leave a mark on the computer's resources because it runs on a very low amount of CPU and system memory.
