A new approach for developing the geometry of a 3D micro-NMR magnet and for scaling up the number of windings for a given volume is presented. A first-order development theory is developed and allows the design of a 3D micro-NMR magnet with scalable coils in both dimensions. It is shown that almost all the high resolution NMR problems are solved with a micro-NMR magnet of the presented design. First results on the transfer of a phantom into 3D micro-NMR magnet are given.Taxi driver acquitted Share this article: Share Tweet Share Share Share Email Share Johannesburg - The Uber driver and passengers who were arrested for "theft of a vehicle, three counts of theft, two counts of kidnapping, three counts of unlawful possession of an M2 weapon, three counts of possession of ammunition, and two counts of dangerous weapon" were acquitted at the Johannesburg Magistrates' Court on Tuesday, May 20.
