Take the guesswork out of video editing with the new VideoStudio Transitions Editor! Paste in your clip and let VideoStudio create the ideal dissolve and transition - either automatically or by using a selection mask. With a few simple clicks, you'll have a professionally timed clip. VideoStudio's new video stabilizer for 360, Cinematic, and VR videos provides great video stabilization and a real-time preview so you can easily see what your final video will look like before you finalize your project. As VideoStudio becomes more functional and powerful with each new update, the free updates will offer new features and improvements to the current version as well as additional capabilities to the editor. The company is committed to continual improvements to the editor as a whole, and through regular updates, users will be granted access to these improvements as they occur. New technologies, standards, and competitors often bring about these new developments. VideoStudio is proud to provide the latest technology for our users. Another excellent feature of VideoStudio is that it can help you burn the edited videos into DVDs automatically and this means that you do not have to visit any DVD burning software. As for the price, it is very affordable, so don't let its low price fool you. Corel VideoStudio Ultimate X10 is a handy video editing application that has been developed for helping you to create the movies with a scintillating sync between dialog and background sound. It will also let you burn the edited videos on DVDs with the use of an integrated authoring tool. You can also download Corel VideoStudio X8 SP1 Multilingual.
