To celebrate the impending release of Pokemon Diamond and Pearl, I thought I would do a review on this amazing console. So, let me go ahead and say this. The Pokewalker is a great idea, when it works. The game is fun when you play it. But the minute you aren't in the game, is when it is incredibly frustrating. I would say it is fun but for the fact that when it stops working, you feel like you are the messiest people on earth. Until now, Fifa did not seem to have cared very much about its brand. It has been willing to exploit its growing status as the be-all, end-all game of international sport to the hilt. In seven years it has made a profit of more than \$2.6bn (£1.6bn) and spent more than \$12bn in marketing, while its board of directors or executive committee, which was more than twice the size at Fifa's 2003 election, boasts billionaire and former US hedge fund investor, Elliot Management's, Carlos

Slim, Britain's Richard Scudamore, and Gary Lineker, England's star football player, are all on the board of best Fifa manager 2015 13. But recently Fifa has started to feel the pinch. Like others, it has been forced to respond to a new social media age where fans, commentators and journalists consume, criticise and perhaps even change their attitudes towards their sport, and most importantly, in this context, receive their news, fast. In those dark years, Fifa should have listened to the rest of the world. As the conference of presidents and high-level Fifa officials ignored many of the issues raised by the fans and those other nations, it began to lose its standing and respect. The organisation it represents was not respected enough to respect it.
